SUMMARY

GTM Engineer building outbound systems in Clay and n8n: lead enrichment waterfalls, AI-personalization pipelines, and CRM activation that take a raw list to a send-ready campaign. Background as a Technical Project Manager running 15+ concurrent software projects brings the delivery discipline to ship these systems end to end, from data architecture through inbox warmup.

PROFESSIONAL EXPERIENCE

Junior Technical Project Manager - Infiniti Software

Sep 2025 - Present

Islamabad, Pakistan

- Managing 15+ concurrent mobile and web projects, coordinating a cross-functional team of 10+ developers, designers, and QA engineers
- Own the full project lifecycle: scope definition, sprint planning, resource allocation, stakeholder reporting, and risk management
- Run weekly stakeholder reports and sprint reviews; identify and resolve blockers before they escalate

Freelance GTM Automation Consultant - Self-Employed

May 2026 - Jul 2026

- Defined ICP and scoped target criteria for the client's outbound campaign
- Sourced and verified contacts using signal-based enrichment in Clay, pulling work emails and buying signals
- Ran 4 outbound campaigns end to end: reached 13,000 contacts across a 3-touch email sequence (32,000 emails sent), generating 200 replies and 25 positive responses

Flutter Developer - TeraBit IT

Dec 2024 - Apr 2025

Pakistan

- Built and deployed 2 production apps to iOS and Android, handling Firebase Auth/Firestore, Stripe subscriptions and in-app billing, push notifications, and deep linking
- Lead project, Sayitinacard, is a paid app with 1,000+ downloads

PROJECTS

Luumilo - Educational Mobile App and Website (Ages 3-6)

- Managed delivery of a screen-free educational platform with weekly curated activities, a scalable activity library, gamification, subscriptions, referrals, and a community module

Motorsport University App - Diagnostic Mobile App for Motorsport Drivers

- Led delivery of a 'Chassis Doctor' diagnostic tool giving oval-racing drivers real-time car setup recommendations by track, surface, and weather

Fitness Studio Management Web App

- Directed development of a web app for fitness studio managers covering appointments, members, staff, contracts, and Meta-integrated marketing from one dashboard
